# **EQUIPMENT**

**F**ITCHBURG, a successful manufacturing city of nearly forty thousand inhabitants, is beautifully situated among the hills between Mt. Monadnock and Mt. Wachusett. Its fresh air, pure water, and good drainage make it one of the most healthful cities in New England. It has a public library and fine art museum, and churches of nearly every denomination.

Here in 1895, the Fitchburg state normal school was opened with four teachers and forty-six pupils. In 1917 there are thirty-two teachers, four hundred thirty-three normal students, and six hundred eighty-five children in the schools of observation and practice.

The graduates are classified as follows: one thousand forty-nine from the elementary department, two hundred seventy-nine from the advanced department (now known as the Junior high school department), nineteen from the kindergarten department, and sixty-four from the practical arts department for men. Twelve have received diplomas for the completion of two years of special work, and ten have been given certificates for one year's work.

The normal school property is now worth nearly half a million dollars. The work is carried on in eight buildings. Fine pieces of statuary, and many beautiful pictures by famous artists are found in the corridors and other conspicuous places. A list of these may be obtained by application to the school. The grounds, fifteen acres in extent, include an athletic field for boys, tennis courts, and school gardens.

The main building contains forty rooms, including a pleasant study hall, and a large commercial office where, under careful supervision, the pupils from the Junior high school carry on most of the clerical work of the normal school. The reference library contains over eight thousand volumes besides many reports and textbooks. The leading periodicals are found in the reading room. Four subways connect the main building with the Edgerly school, the Junior high school, and the two boarding halls.

The boarding halls are heated by steam and lighted by electricity. In Miller Hall, which accommodates seventy-five students, the rooms are arranged in suites. Palmer Hall, opened in September, 1913, contains single rooms and rooms for two, and accommodates

sixty-three students. A night watchman is employed. The board is of the best, fresh eggs and vegetables being supplied from the school farm. For particulars in regard to securing rooms, etc., see the section of this catalog under "Expense."

Edgerly school, one of the four practice schools, is a twelve room building for grades one to six.

The Junior high school contains twelve rooms and various shops. Opportunity for practice is here given to normal students who wish to specialize in Junior high school work, that form of education which is fast being adopted. In the Junior high school building is the assembly hall seating seven hundred. It is provided with a large stage and dressing rooms, and is equipped for moving pictures.

Day Street school is a twelve room practice school for grades one to six.

The Highland Avenue school includes grades one to three, and gives opportunity to students to train in lower grade work.

The Hastings greenhouse, one of the finest in the state, furnishes the school with many plants and cut flowers, and is used by students in connection with various forms of agricultural work.

# **COURSES**

**N**ORMAL students are granted diplomas in the following regular departments:

The Elementary Department of two years fits for teaching in grades one to six.

The Advanced Department for Junior high school teachers is four years in length, one year of which is spent in teaching on salary. This department prepares principals and teachers for Junior high schools. Opportunity is given also to prepare for teaching special subjects in Junior high schools, as outlined in detail on the following pages:

The Practical Arts Department of three years is open only to young men. It fits teachers for manual training and various forms of industrial work.

Normal school or college graduates, or persons with not less than three years of satisfactory experience in teaching, may be admitted to the school with advanced standing. These may, with the approval of the principal, elect sufficient courses from the regular curricula to constitute a year's work, for which a certificate, or, with the approval of the Board of Education, a diploma will be granted.

Concerts, recitals, plays, and lectures occur at frequent intervals. At the assemblies brief addresses are given by members of the faculty and by visitors to the school. Story-telling, twenty minute talks, and debates on current questions provide the students practice in public speaking.

## Courses of Study in Departments for Teachers for Elementary Schools and for Junior High Schools

(The letter A designates a course for elementary teachers only, and B for Junior high school teachers only. Where both letters follow a title, the course is required for both classes of teachers.)

(A period is approximately forty five minutes.)

## Practical Arts Department

The Practical Arts Department is to prepare men to teach the work classed under practical arts, industrial arts, and manual training, to boys between the ages of twelve and sixteen years, in grammar schools, and in Junior and Senior high schools.

### LENGTH OF COURSE

1. The time required in this department, to complete the course by those who have not had trade education, is three school years of forty weeks each.

2. At present the work of the department can be completed by taking these subjects in two years and three summer terms of eight weeks each.

3. Previous trade experience in woodworking, painting, wood finishing, printing, bookbinding, drafting, and other approved trades, may shorten the time required to two years, or two years and one or two summer terms, according to the amount and quality of the previous experience.

4. In some cases journeymen, particularly from any of the above trades, are permitted to take a one year's course as special students.

### ADMISSION

Applicants for admission must meet one of the following requirements:

1. Four years' successful work in an approved high school, or pass the entrance examinations for the elementary course.

2. Four years' successful work in an approved trade.

3. An equivalent combination of 1 and 2.

4. All candidates must have attained the age of seventeen years; must be free from diseases, infirmities, and other defects, which would unfit them for teaching, or for training in this department to become teachers.

5. They must present a certificate of good moral character.

6. All candidates must also furnish references as to previous work and ability.

**ADMISSION**

**T**HE candidate for admission to a Massachusetts state normal school as a regular student must have attained the age of seventeen years if a man, and sixteen years if a woman, on or before the first day of September in the year in which he seeks admission; must be free from diseases or infirmities, or other defects which would unfit him for the office of teacher; must present a certificate of good moral character; and must present evidence of graduation from a high school or equivalent preparation, and, in addition, offer such satisfactory evidence of scholarship as may be required by the regulations of the Board. He must submit detailed records of scholarship from the principal of the high school or other school in which preparation has been made, showing the amount of time given to individual subjects and the grades therein, and such additional evidence of qualifications for the calling of teacher as may be defined in the regulations of the Board relating to normal schools.

II A candidate for admission as a regular student to a general department must offer satisfactory evidence of preparation in the subjects listed under "A," "B," and "C," amounting to 15 units, 10 of which units however, must be in subjects under "A" and "B," and secured either by examination or certification. (Applicants for admission to the Practical Arts department may substitute evidence of practical experience in some industrial employment in whole or in part for the above.)

A unit represents a year's study in any subject in a secondary school, constituting approximately one quarter of a full year's work.

(A) Prescribed subjects. Three units.

1 English literature and composition, 3 units.

(B) Elective subjects. At least 7 units from the following subjects:

2	Algebra,	.	.	.	.	.	1 unit.
3	Geometry,	.	.	.	.	.	1 unit.
4	*History,	.	.	.	.	.	1, 2 or 3 units.
5	Latin,	.	.	.	.	.	2, 3 or 4 units.
6	French,	.	.	.	.	.	2 or 3 units.
7	German,	.	.	.	.	.	2 or 3 units.
8	Physics,	.	.	.	.	.	1 unit.

9	Chemistry, . . . . .	1 unit.
10	Biology, botany or zoology, . . . . .	$\frac{1}{2}$ or 1 unit.
11	Physical geography, . . . . .	$\frac{1}{2}$ or 1 unit.
12	Physiology and hygiene, . . . . .	$\frac{1}{2}$ or 1 unit.
13	General science, . . . . .	$\frac{1}{2}$ or 1 unit.
14	Drawing, . . . . .	$\frac{1}{2}$ or 1 unit.
15	Household arts, . . . . .	1 or 2 units.
16	Manual training, . . . . .	1 unit.
17	Stenography, including typewriting, . . . . .	1 or 2 units.
18	Bookkeeping, . . . . .	1 unit.
19	Commercial geography, . . . . .	$\frac{1}{2}$ or 1 unit.
20	Arithmetic, . . . . .	$\frac{1}{2}$ or 1 unit.

\*History includes Ancient, Mediaeval Modern; English History, American History Civics, and Current Events.

For the present, the topics included within the forgoing subjects will be such as are usually accepted by the Massachusetts colleges for entrance. The outlines submitted by the College Entrance Examination Board (Sub-station 84, New York City) will be found suggestive by high schools.

(C) Additional Subjects. At least 5 units from any of the foregoing subjects, or from other subjects approved by the high school towards the diploma of graduation of the applicant. Work in any subjects approved for graduation, in addition to that for which credit is secured by examination or certification, may count towards these units.

III (A) Examinations. Each applicant for admission, unless exempted by the provisions of Sections IV and V must pass entrance examinations in the subjects as required under "A" and "B." Examinations in these subjects will be held at each of the normal schools in June and September of each year. Candidates applying for admission by examination must present credentials or certificates from their schools to cover the requirements under "C," and will not be given examinations in these subjects. Persons not able to present these credentials must obtain credit for 15 units by examination in the subjects listed under "A" and "B."

(B) Division of Examinations. A candidate for admission to a normal school may take all of the examinations at once, or divide

them between June and September. A candidate will receive permanent credit for any units secured by examination or certification.

IV Admission on Certificate. A graduate of a public high school approved by the Board of Education for purposes of certification to a state normal school may be exempted by the principal of the normal school from examination in any of the subjects under "A" and "B" in which the principal of the high school shall certify that the applicant is entitled to certification in accordance with standards as defined by the Board of Education.

Credits secured by any candidate from the Board of Regents of the State of New York, or for admission to any college in the New England College Entrance Certificate Board, either by examination or certification, or in the examinations of the College Entrance Examination Board, shall be accepted towards the total of 10 units under "A" and "B." In addition to the units granted by certification candidates must present credentials for subjects under "C."

V Admission as Special Students. (a) When in any normal school, or in any department therein, the number of students entered as regular students and as advanced students at the opening of any school year is below the maximum number for which the school has accommodations, the Commissioner may authorize the admission as a special student of an applicant who, being otherwise qualified, and who, having taken the entrance examinations, has failed to meet the full requirements provided in the regulations of the Board, but who, nevertheless, is recommended by the principal of the normal school as, in his estimation, qualified to become a teacher. Such a special student shall be given regular standing only when he shall have satisfied all admission requirements, and when his work in the school, in the estimation of the principal, justifies such standing. The principal of the normal school shall report annually in October to the Commissioner as to all special students. Certificates may be granted to special students in accordance with regulations approved by the Board.

(b) When in any normal school, or in any course therein, the number of students entered as regular students, as advanced students, and as special students as defined in (a), at the opening of any school year is below the maximum number for which the school has accommodations, the Commissioner may, subject to such special regulations

as may be approved by the Board, authorize the admission to any class as a special student, on the recommendation of the principal, of a person possessing special or exceptional qualifications for the work of such class. Such special student shall not be considered a candidate for a diploma until he shall have qualified as a regular student, but may, on the satisfactory completion of the work of the department, be granted a certificate to that effect by the Board. The principal of the normal school shall report annually in October to the Commissioner as to all special students in the school under the provisions of this section.

VI Admission as Advanced Students. A graduate of a normal school or of a college, or any person with not less than three years' satisfactory experience in teaching, may be admitted as a regular or as an advanced student of any department under such regulations as may be approved by the Board.

---

The foregoing requirements for admission to Massachusetts normal schools are based upon the two following principles:

1 The only subject necessarily presupposed as a basis for normal school work is English. This is required of all candidates for admission. The entrance examination in English is in two parts,—one part dealing with English expression, and the other dealing with English literature.

2 In order to permit the variation in program in different high schools, and the variation of curricula of different pupils in the same school, and also to allow for the development of new subjects, a "free margin" of substantially one-half of the entire high school program is allowed.

# **EXPENSES**

## **Tuition**

Tuition is free to all residents of Massachusetts. Non-residents of the State are required to pay, at the beginning of each half-year session, the sum of twenty-five dollars.

## **Room and Board**

Room and board are eighteen dollars per month, this amount to be paid monthly, in advance. To secure room, either in Miller Hall or in Palmer Hall, an early application is necessary. Rooms are reserved in order of application upon deposit of four dollars and a half with the clerk of the school. No room will be reserved until this deposit is made, which will be credited for the first week's board in the fall, but will not be refunded in case a student decides not to enter. No room will be held for a student after the opening of the school in the fall for longer than two weeks, for which payment must be made in advance.

The school furnishes mattress, pillow, and rug. The student should bring sheets, pillowcases, blankets, and couch cover for couch bed three feet in width. If preferred, blankets may be hired for the year at seventy-five cents per pair, and couch covers at fifty cents apiece.

All pieces of clothing, will be marked at the laundry. If students use students' laundry, two dollars must be paid in September for use for one year.

All students are required to pay one dollar in September for medicines, antiseptics, first aid, and incidental care.

## **Travelling Rates**

Day students travelling by train, may obtain season tickets at greatly reduced rates from any of the railroads entering Fitchburg.

## **Meeting Expenses**

In June, 1906, an alumni loan was founded. This is increased yearly by contributions from the alumni. Subscriptions from others also will be gladly received. To students needing help, amounts not exceeding one hundred dollars annually will be loaned, such amounts to be repaid with interest after graduation.

Work is provided for students who must earn part of their expenses. Part of the expenses of this work is met from the fund for State Aid which is distributed semi-annually to deserving students whose homes are not in Fitchburg. Application for work under this fund should be made in writing to the principal.

Young men have opportunity to do janitor work and make repairs around the buildings, thereby earning part of their expenses.

There is also opportunity for work in the dormitory whereby a number of young woman earn all of their expenses by spending three years of forty weeks each on the two years' course.

The matron gives a reading course, evenings, in the subject of household arts. Students taking this course at graduation will be given, in addition to a diploma, a written statement by the principal telling the value of the work covered in this subject. For further particulars, address the clerk of the school.
